RECRUITS FOR THE WAR!

I am authorized by the Governor to raise a company for the war. Each man enlisted is entitled to \$100 bounty money, Fifty Dollars by the State and Fifty by the Confederate States. I will pay each enlisted man Fifty Dollars, the amount due by the State, as soon as enlisted and passed by the Surgeon. Fifty Dollars due by the Confederate States will be paid as soon as the company is formed and mustered into service.

North Carolina soil is invaded by the foe! I appeal to you as North Carolinians to come forward and organize, and be prepared for action!

J. M. F. HARRISON.

STUDY REPORT

THE STUDY

The purpose of this study was to determine the effect of the treatment on the patients. The results of the study are as follows: The treatment was found to be effective in the majority of cases. The patients who received the treatment showed a significant improvement in their condition. The treatment was well tolerated by the patients and no serious side effects were observed. The results of this study suggest that the treatment is a promising approach for the management of the condition.
